

Final Project

CS 6501 Reinforcement Learning (Spring 2025)

1 Proposal (5%) – due on February 16

2 Midterm Report (5%) – due on March 28

- Present what you have done so far and what you plan to do.
- It is not necessary to repeat what you have presented in the proposal.
- If the project direction deviates from the proposal, please describe your new direction.
- No more than 3 pages excluding references (in any format).

3 Final Presentation (10%) – due on April 30

- As a video no longer than 12 minutes.
- Videos will be shared among classmates, who may comment on each other's presentations.
- Present your work with clear motivation and problem formulation. Highlight your contribution.

4 Final Report (10%) – due on May 5

- Use NeurIPS 2025 template. The link will be announced later.
- The main text cannot exceed 6 pages. You may have an appendix with unlimited number of pages (which may not be read).
- The content is similar to a workshop or conference paper.
